SIR:

This response is submitted in response to the Office Action dated February 19, 2002. Reconsideration of the application in view of this response is requested.

Defective Oath/Declaration and Rejection of Claims 1-86 Based Thereon

The Examiner has indicated the oath/declaration in the present reissue application is defective "because it fails to identify at least one error which is relied upon to support the reissue application," in that the "declaration fails to identify a single word, phrase or expression in the specification or in an original claim and how it renders the original patent wholly or partly inoperative or invalid." Based on this, the Examiner has rejected claims 1-86 as being based on such defective reissue declaration.
